Warnings

- PROBE T is designed for use in meat(food).
- The charger block is non-waterproof, do not immerse it in water or other liquids.
- To avoid damage to PROBE T, insertion of the probe in the meat past the Safety Notch is necessary.
- Do not use PROBE T probes in a microwave or pressure cooker.
- PROBE T probes are not dishwasher safe. Please hand wash with soap and water before and after each use.
- PROBE T is water resistant, not fully waterproof, do not submerge in water for long periods of time.
- Please take caution with the pointed tip of the probe.
- Probe will be very hot during or just after a cook. Do not touch with bare hands.
- Do not submerge the PROBE T probe in cold water after cooking. Wait until it has cooled down prior to washing.
- PROBE T is not a toy, please keep it away from children.
- The internal sensor max is 212 F (100 C). Temp above the maximum may potentially damage PROBE T.
- When cooking, ensure any part of the probe is not touching any HOT cooking surface.
- When not in use, store PROBE T in a dry and cool place.
